

SB ERECTORS

Quality & Team Work

ISO 9001:2015 Quality Management System Certified Company

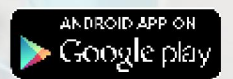

Erection, Commissioning & Engineering Consultants

www.sbengineeringworks.com

 sberectors@gmail.com | info@sberectors.com  +91 88611 02065

Manufactures and Services of :

Erection and Commissioning of Paper Industry
Slat Conveyor, Chimney, MS & SS Tank, Ducting,
EOT Crane, Truss work, Rolling, Pneumatic Panels,
Lathe works, Rope Carrier & All Fabrication work

SB Erectors is one of the pioneering Indian companies since 20 years having vast experience in the field of Erection and Commissioning of Machines of various types and sizes of plant items in the paper manufacturing industry. The company is well equipped to undertake the total solutions for Paper manufacturing Plants with latest technology.

The company also specializes in the Erection and Commissioning of Machines of various types and sizes of plant items erection like boiler, chemicals and truss work for Sugar Industry, Cement industry and other industries. We have vast experience in this field and have successfully completed major projects in India.

Vision

To be the most trusted partners to our clients by providing one stop solution for high quality, time bound and cost effective innovative solutions.

Mission

To offer clients genuinely innovative solutions in the timely execution of projects without compromising on quality and safety by,

- ❖ Ensuring Integrity & Code of Conduct
- ❖ Precision Timekeeping & Highest level of Accuracy
- ❖ Strong leadership and Energetic Team
- ❖ Continuous improvement and Innovations.

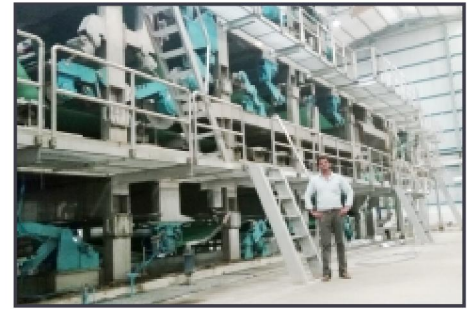

Time Keeping & Accuracy

We strongly believe that the speed & accuracy have to be a balanced track. Our young team is well trained to improve their speed day by day with 100% accuracy & flexible enough to work extra time even in non-working days to complete the project in stipulated time. Setting benchmark continuously with integrated process and interaction among committed team members to ensure quality levels are high from the initial stage of a project to its final outcome.

Integrity & Code of Conduct

Flexible process to meet client's business style and to build trust based relationship. It is our policy not to disclose any information about our clients to any person or organizations. The information received will be used only for our client and kept confidential.

Leadership & Team

We are a company with diverse talents & skills. Our leadership structure offers a dynamic atmosphere in which talented, creative & motivated people thrive. We don't just acknowledge hard work & achievements; we reward it & groom it. We have an experienced team of ambitious, vibrant, young professionals having ability to update with latest trends & requirements of our client. Our team's passion is to take challenges and to deliver to clients expectations.

Our Team

Parallel to our growth in terms of infrastructure, we have also strengthened our bench strength of experienced and capable executives. Their rich experience leads and guides our strong team of more than 30 engineers, Supervisors, Site Engineers and 1000 workers (Skilled and unskilled). Speaking of engineers and supervisors, majority of our technical people have vast project execution experience.

Here's a brief insight into our infrastructural capabilities

WE ARE HAVING OUR OWN TOOLS AND TACKLES LIKE, OPTICAL LEVELING, THEODOLITE, PLASMA CUTTING, TIG WELDING, MIG WELDING, HEAVY JACKY, HAND TOOLS, MG ERECTION TOOLS etc..

Quality

Today's market is quality and technology. All Service provider needs accuracy to maintain the high parameters of quality, which is the mandate of the present scenario. All manufacturers have to be careful with regards to the products and services provided. The customer's requirement needs to be fulfilled with greater accuracy and precision. SB Erectors will promise our customers the quality and commitment.

PAPER FEEDING ROPE CARRIER SYSTEM

Application of Rope Carrier Systems

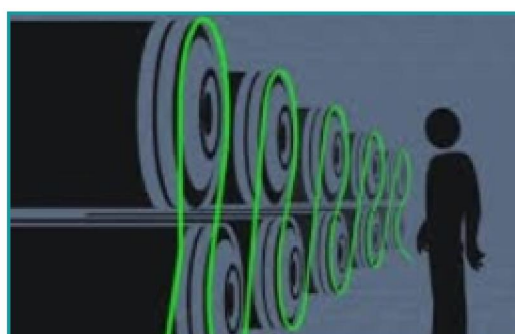

Increasing machine speed it becomes difficult to feed paper manually. Paper feeding time is also important factor for productivity and we can avoid accidents. Rope Carrier is the solution of Paper feeding in Paper Machine. In dryer section two rope paper feeding system works, but for Coating Section three Rope Paper Feeding System works. We make paper feeding Rope Carrier System and supplied the system to many paper mills.

Vertical Pneumatic Stretcher

Vertical Stretchers are specially designed for first floor machines. These Vertical Stretchers are being made available in both variants Weight loading as well as pneumatic loading variants. These can be installed in One, two and three Ropes systems

Horizontal Pneumatic Stretcher

Primarily designed for ground floor machine but it can also be designed for first floor machines. Easy to install and access. Size variation according to number of dryers in a group. (Usually, there are 6-8 cylinders in a group). Available in one, two and three ropes configurations. Available in weight loading and pneumatic loading variants

Solution for no grooves in the Dryer Section

SB ERECTORS provides separate mild steel grooved rings . The grooved ring diameter is the same size as cylinder diameter and can easily be mounted over the dryer cylinder face. The width of ring may vary from 50 to 60mm and above. For Mild Steel Cylinders the ring is directly welded to the face of the cylinder. For Cast Iron cylinders the ring is mounted to the face of the cylinder through bolts and mounting blocks provided with ring.

SB ENGINEERING

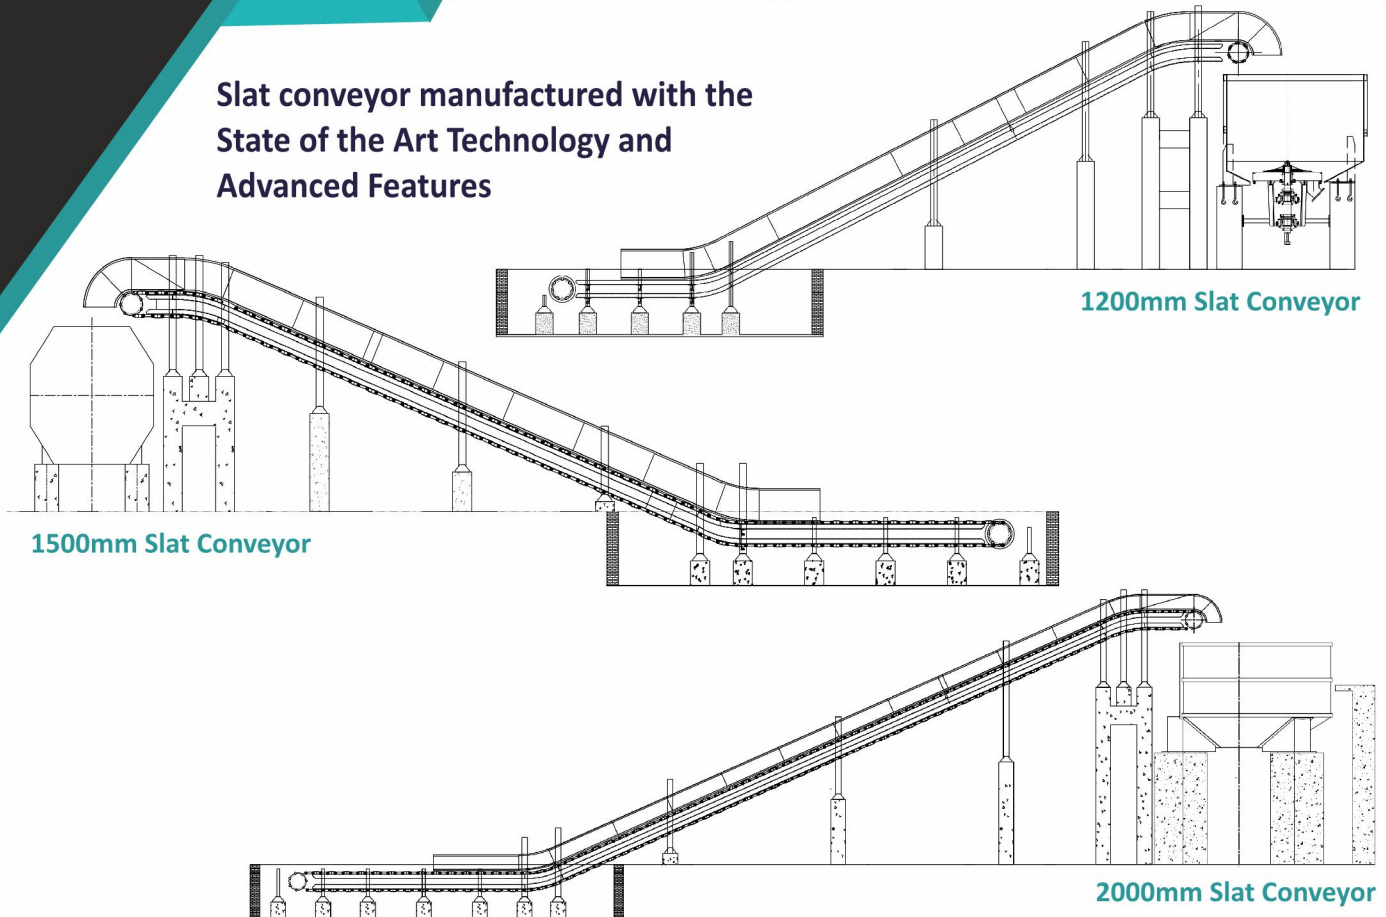

Quality & Team Work

WE MANUFACTURE
1200mm, 1500mm,
1800mm & 2000mm
SLAT CONVEYOR SYSTEMS

Slat Conveyor

Slat conveyor manufactured with the
State of the Art Technology and
Advanced Features

We can also include paper weigher in conveyor system as required.

We have designed a special conveyor, which can be loaded before feeding to the pulper. While the pulper is in movement conveyor is loaded to it's full capacity, to be fed for the next charge to the pulper

The advantage of slat conveyor over & above belt conveyor is as under

1. It is a positive drive. no spillage or sliding of paper.
2. The discharge time to the pulper is maximum 3 minutes therefore full use of connecting load to the pulper which is around 300 HP.
3. The strength of the finished product improves because even mixing of entire bulk in the pulper.
4. Because of immediate discharge of waste paper, loss of electricity in the pulper is saved.
5. Conveyor can be designed to suite the capacity requirement of the pulper.

Our Slat Conveyor machine has been installed and running successfully in various locations across the country

The slat conveyor is manufactured using the state of the art technology and advanced machineries.

**FEATURED
WITH
State
of the Art
Technology**

SB Engineering is one of the pioneering Indian companies since 20 years having vast experience in the field of manufacturing of Machines of various types and sizes of plant items in the paper manufacturing industry. The company is well equipped to undertake the total solutions for Paper manufacturing Plants with latest technology.

SB Engineering is situated in the south Tamilnadu region of the paper manufacturing hub, Coimbatore. SB Engineering is equipped with latest technologies in the field of manufacturing and fabrication of paper machineries.

We have a state of the art facility to manufacture a wide range of pulp mill equipment, paper machines with best in-class material and higher reliability. We are specialized in manufacturing of all spare parts required for paper machineries. We have expertise in fabrication of chimneys, various types of water, diesel, chemical tanks etc

SB Engineers factory is spacious plant with a widespread area of 40000 sq. ft., equipped with following advanced features:

- ❖ Lathes which can handle jobs up to 6mts Length and 1.5mts height.
- ❖ Various types of Drilling Machines
- ❖ Rolling machines with a rolling capacity up to 20mm Thickness.
- ❖ Modern EOT Cranes with a capacity to lift 10Tons.
- ❖ MIG Welding, TIG Welding and Plasma Cutting machines.
- ❖ Plano Miller, Slotting Machines.

PULPER AND CONVEYOR SYSTEM (Conveyor and Slat Conveyor Systems)

- ❖ We undertake manufacturing of Low and Medium Consistent pulpers for the slushing of various types of wastes which is generated during the process.
- ❖ Pulper is supported with SS Perforated screen plate with hole diameter based on the quality of raw material used.
- ❖ The Pulper and conveyor systems are manufactured for various dimensions ranging between 3m³ to 12 m³ as per the client requirements.
- ❖ Suitable Belt/Slat Conveyor is supplied for feeding raw material

TURBO SEPARATOR

- ❖ Most suitable in screening of pulp slurries with high trash and flake content.
- ❖ Can be used as a secondary screen.
- ❖ Online contaminants removal of both light and heavy rejects.
- ❖ Sturdy design with M.S. body with SS Lining.
- ❖ Available in T300, T400, T500, T600.

VIBRATOR SCREEN

- ❖ Treatment of rejects from high consistent cleaners and other screeners.
- ❖ Eliminates rejects like plastic, knots etc.
- ❖ Made from M.S. fabricated body with S.S. 304 Screen/HDPE.
- ❖ Perforated screen of 3.0mm hole.
- ❖ Sizes as per the requirements
- ❖ Easy maintenance.

THICKNER

- ❖ Reduce Specs in Pulp.
- ❖ Able to use cheaper waste paper.
- ❖ Enhances fiber treatment.
- ❖ Reduces sticky, hot melts etc.

SLAT CONVEYOR

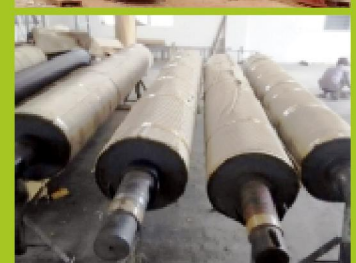

- ❖ It is a positive drive, no spillage or sliding of paper.
- ❖ Conveyor will be designed to match the capacity requirements of the pulper.
- ❖ Equipped with the capacity to manufacture 0.5meter to 4meter width.

FRAMES

We manufacture frames of various dimensions

- ❖ Wirepart Frame (Fully S.S./S.S Cladding)
- ❖ Dryer Frame
- ❖ MG Frame
- ❖ Press Frame (Fully S.S./S.S Cladding)
- ❖ Popereal Frame

ROLLS

We manufacture the following types of rolls

- ❖ Press Rolls
- ❖ Rope Carrier
- ❖ Head box
- ❖ Wire part
- ❖ Line Shaft
- ❖ Paper Rolls
- ❖ All Rubber Rolls

BOILER

- ❖ We are specialized in erection boilers of all capacities
- ❖ We have expertise in IBR & Non-IBR Pipelines for all industries

SPARES

- ❖ Screen Plate For Turbo, Pulper, Vibrator Screen etc,.
- ❖ Bearing Housing and Bracket for various type of rolls.
- ❖ Customized Felt Rolls as per requirement
- ❖ Paper Lead Rolls as per requirement specifications
- ❖ Vaccum Boxes with customized sizes
- ❖ Manual Felt Guide and Manual Stretchers
- ❖ Press and Dryer Frames
- ❖ Pulper Impellers (S.S)

EOT CRANES

We manufacture all kinds of EOT Cranes

- ❖ Single Girder
- ❖ Double Girder
- ❖ Capacity of 1 to 60 ton - (Capacity can be increased above 60 tons as per requirement)
- ❖ Moving trolley 1 to 60 ton capacity

GENERAL FABRICATION

We fabricate M.S. and S.S tanks, jacketed tanks etc.,

- ❖ Rolling Jobs
- ❖ Boiler Chimneys etc.
- ❖ Round Tanks, Diesel Tanks
- ❖ All dimensions of pressure vessel and structurals

REPAIR WORKS

We undertake all soughts of the repair works in paper manufacturing machinaries, (Removing and Refixing of broken Shafts in all rolls)

- ❖ Job Works, Lathe Making, Drilling etc.,
- ❖ All Tank, Pipe Line Repair Work

TRUSS WORK

We undertake all type of truss sheet works for various types of industries & construction works.

CONSTRUCTION WORK

- ❖ We carry out construction works for all industries
- ❖ We are specialized in fabrication and erection of various types of TRUSS; PEB Structures for various industries.

IMPORTER & SUPPLIERS OF FINE QUALITY PRODUCTS

PAPER MACHINE CLOTHING

- ❖ Forming Fabrics
- ❖ Dryer Screens (Conveyers Belts)
- ❖ Press Wires & MG Felts

DOCTORING SYSTEM

- ❖ Fabrication of doctor holder
- ❖ Airtube doctor holder with / without oscillation system,
- ❖ Doctor Blades in PB, PP, Epoxy Fiber, Carbon Fiber and Carbon steel

KNIVES FOR REWINDER / SHEET CUTTER

- ❖ Manufacturing of Circular Top, Bottom and Multi edge knives
- ❖ Shear Blades and slitters
- ❖ Simplex, Duplex and High speed Synchro sheet cutter
- ❖ Granulator blades and cutting sealing blades

INSTRUMENTATION

- ❖ Basis weight control valve, pneumatic control valve, pulp valve
- ❖ Consistency control loop METSO
- ❖ Headbox automation i.e. Level control, total head and jet/ wire ratio

MACHINERIES

- ❖ Imported pressure screen and slotted & Perforated basket
- ❖ Vacuum Pumps, Stop transfer pump and dosing pump
- ❖ C.I. Dryer, C.I. Yankee, Press Roll, Calendar Roll, Suction couch Roll and Combinationroll.
- ❖ HD Cleaner PLC Operated.
- ❖ Centricleaners- Heavy and Light Reject.
- ❖ Headbox-Air Cushioned type & Hydraulic head box

DE-WATERING ELEMENT

- ❖ Sicer make Ceramic High Vacuum Tops, TRIVAC, SINGLE HYDRO FOILS & TRANSFER BOX
- ❖ UHMW-PE Vacuum Tops and Hydro foils in virgin and ceramic mix
